

HEATON

ENGINEERING PVT. LTD.

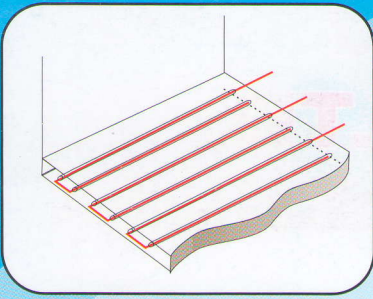

Turnkey Solutions For Heat Tracing & Flexible Heating.

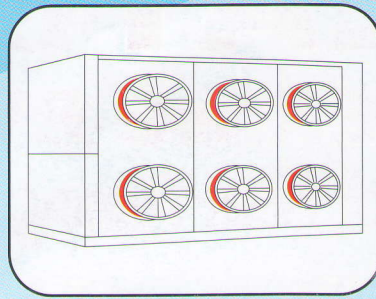

Offers

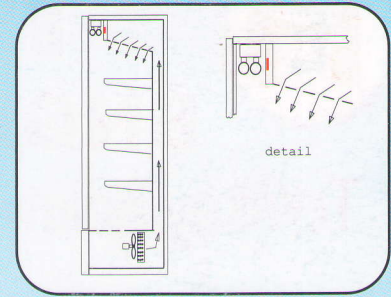

COLD ROOM HEATING APPLICATIONS

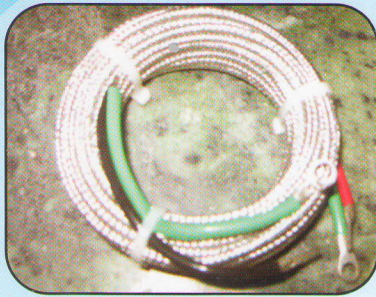

Frost Heave Prevention

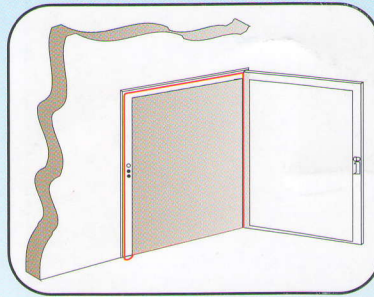

Fan Cowlings

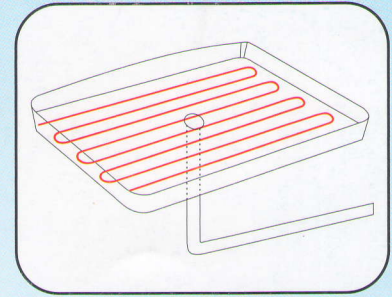

Supermarket Frozen Food Cabinets

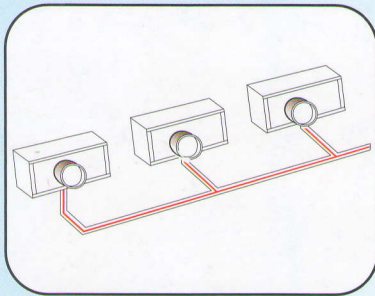

Single Cord Heater

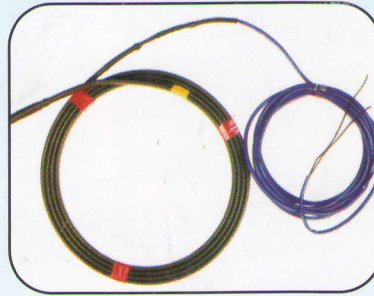

Cool Room Doors
Cool Room Thresholds

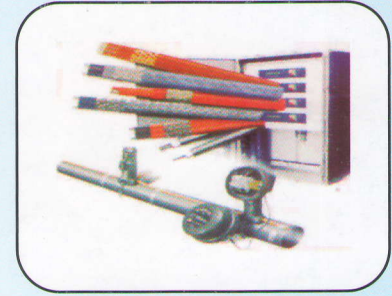

Drip Trays

Drain Lines

Drain Line Heater

Heat Tracing System

We offer well proven Self Regulating Heat Tracing Systems for Cold Room Applications.

Self Regulating Systems are safe, reliable, burn out proof, energy efficient long lasting for Antifreeze applications.

1. TRACERS ARE SELF REGULATING TYPE & HENCE TRACERS ARE SAFE AND BURN OUT PROOF IN NATURE.
2. TRACERS ARE FLAT IN PROFILE ENSURING BETTER SURFACE AREA CONTACT & LOW TRACER SHEATH TEMP. ENSURING LONGER LIFE.
3. EVEN IN CASE OF TRACER NOT TOUCHING TO SOME PORTION OF SURFACE, TRACER SHALL DELIVER LOWER OUTPUT IN SUCH AREAS & NO DAMAGE TO TRACER DUE TO OVERHEATING.
4. TRACER IS OF PARALLEL RESISTANCE CONFIGURATION & HENCE EVEN IN CASE OF FAILURE OF SMALL SECTION, REMAINING TRACER LENGTH DELIVERS OUTPUT ENSURING THAT SYSTEM REMAINS IN OPERATION.
5. TRACERS ARE WITH CO-EXTRUDED SEMI CONDUCTIVE POLYMER MATRIX AS HEATING ELEMENT & THIS CONSTRUCTION ENSURES THAT THERE IS ABSOLUTELY NO WASTAGE.
6. TRACERS ARE CUT TO LENGTH TYPE & HENCE NO INVENTORY OF DIFFERENT HEATER LENGTHS REQUIRED.
